

Norfolk County Council

Your views on our proposal to review bus services supported by the County Council

Overview

Norfolk County Council plays a huge part in people's lives – ensuring children and young people have the best start in life, protecting vulnerable people, maintaining a safe road system and helping to create a thriving economy. We'll continue to spend over a billion pounds every year providing public services that you, your family and friends use every day.

Norfolk is facing some big challenges though. Our population is growing, people are generally living longer and the type of services that people need is changing. And as you know, the cost of living is going up. As things become more expensive we also have higher costs, and the amount of money we have coming in isn't keeping up. At the same time the grant that central government gives us has fallen by £189 million since 2011 and is expected to fall to zero by 2021.

Even though we are proposing to increase council tax next year, the amount of money we hope to raise wouldn't be enough to balance our budget. This means we have to make some difficult decisions about how we spend your money.

Since 2011 we have saved £334 million. However, we now need to save a further £125 million by 2021. We currently spend £3.1 million every year on bus subsidies and community transport grants. We fund these bus services because they are important to the communities and passengers who use them.

We are proposing to carry out a review of the money we give to bus companies to subsidise bus routes and the grants we give to community transport operators, with a view to saving £0.5 million in 2018/19.

We want to look at whether we could get better value for money without there being a noticeable impact on passengers. However it is likely that we would need to prioritise which services we continue to support in order to save some of this money.

Why we are consulting

We want your views on our proposal to review the money we spend on bus subsidies and community transport grants. Your views will help us to decide whether we should review how we spend this money.

If we decide to go ahead with this review, our proposal is to prioritise supporting bus services which help people get to and from work and to essential services, such as to healthcare appointments and to go food shopping, and where there are no other transport options available. We want to know what you think of our proposal to prioritise these services.

We are consulting through:

- Our online consultation – visit www.norfolk.gov.uk/budget to complete this consultation online.
- This paper copy of our consultation.

We are consulting from 6 November 2017 to 2 January 2018. Please note that if we receive any consultation responses after this date we cannot guarantee that we will be able to take them into account.

We will feed back the findings from our consultation to our county councillors as part of the evidence they will use to help them come to a decision about our proposals.

If you need a copy of this consultation document in a different format please email haveyoursay@norfolk.gov.uk, call 0344 800 8020 or Text Relay on 18001 0344 800 8020 (textphone) and we will do our best to help.

Background information

Subsidised bus routes

The majority of bus routes in Norfolk operate on a commercial basis. This means that they have enough passengers to run the service. The County Council has no say over the routes, timetables or fares of these bus services.

However some bus services with fewer passengers, such as many of those that operate at the weekend, during the evenings or on quieter roads, do not raise enough money from the tickets they sell to cover the costs of running the bus. The bus companies can't afford to run these services at a loss and so we give them some money so that the services continue to run.

We fund these bus services because they are important to the communities and passengers who use them. We fund them to help people to get:

- to and from work
- to and from doctors, hospital and other healthcare appointments
- to do essential food shopping
- to and from leisure and social activities.

We currently give £2.7 million every year to bus companies to subsidise specific bus routes. This money subsidises about 100 services, which is approximately 20% of bus services in Norfolk. Our normal practice is to review how each service is operating every five years. We look at each service individually, rather than review all the services in one go.

Community transport

We also give £400,000 to community transport operators. We currently fund 19 community transport schemes, which pick people up at their house, or the nearest safest place and provide a door-to-door service.

They are set up for a variety of reasons. The majority of people who use this type of service are either disabled or they are older people, but they can be used by anyone who otherwise would not be able to get to services by conventional public transport.

Community transport schemes are run on a not for profit basis, often involving volunteers to manage and run the service, for example volunteer driver schemes.

Here are the criteria we use when deciding whether or not to fund a community transport scheme:

- There has to be a benefit to the community
- The scheme must help people where there are no other transport options available
- Residents would find it difficult to access services using conventional public transport.

You can see a list of the bus services we subsidise and the community transport schemes we grant fund at the end of this document.

Our review

The County Council has to save £125 million by 2021. So we are proposing to review the money we give to bus companies to subsidise bus routes and the grants we give to community transport operators.

We currently spend £3.1 million every year on bus subsidies and community transport grants. We are proposing to review how this money is spent with a view to saving £0.5 million in 2018/19. We don't anticipate that we would make significant savings from the grants we give to community transport operators.

Our review would look at whether we are getting the best value for money and how we could spend our money more effectively. We would look at what we could do to get better value for money without there being a noticeable impact on passengers. We would like to hear from bus passengers if they have ideas about how we could do this.

However in order to save £0.5 million it is likely that we would need to prioritise which services we continue to support. This means it is likely that some bus services would need to change or potentially stop.

There are lots of factors we would need to consider in our proposed review, including:

- The number of people using each service
- At what times and how often people use each service
- Whether there are other transport options available to people
- Whether we could provide a transport service in another way
- Whether there are any particular local needs that are specific to the areas served by each service
- How much it costs us to subsidise each trip made by a passenger (the unit cost) and whether we are getting value for money.

If we decide to go ahead with this review, we are proposing that in future we would prioritise supporting bus services which help people:

- get to and from work
- get to essential services, such as healthcare appointments and to go food shopping
- who live in areas where there are no other transport options available.

Without carrying out our proposed review, it is not possible to say exactly which services could be affected. We understand that this is a very sensitive area and that any loss of a bus service may have a real impact on the people who use it.

We provide services in partnership with bus operators and we are talking with them about our proposed review. If following this consultation we decide to go ahead with a review, we would consult on any specific changes to bus services that come out of it.

How we will make our decision and report back to you

We will take a report about the findings to this consultation to our Environment, Development and Transport Committee on 19 January 2018. The report will feed back what people have told us about the potential impact of our proposal. The feedback will also be reported at Full Council on 12 February 2018.

Our county councillors will consider the consultation responses we receive very carefully. In particular, they will take into account:

- The impact of any proposal on individuals, groups or communities and in particular on people identified as having 'protected characteristics' under the Equality Act 2010. The protected characteristics are: age; disability; gender reassignment; pregnancy and maternity; race; religion or belief; sex; and sexual orientation. As well as this equality impact assessment, councillors will consider the impact of proposals on rural areas
- The views of people and stakeholders consulted
- The evidence of need and what is proven to work effectively and well
- The financial and legal positions and any constraints at the time
- Any potential alternative options, models or ideas for making the savings.
